Live Student Interaction with Teacher Control

Device Agnostic Software Works Across Devices

Single Sign-On with Google & Microsoft

Integration with Google & Microsoft

Digitized Widgets & Manipulatives

ENGAGE YOUR STUDENTS WITH INTERACTIVE LEARNING

Newline Engage Cloud is an online, cloud-based interactive whiteboard that empowers teachers with the tools needed to conduct remote, hybrid and in-person instructional sessions on their Newline displays. Instructors can upload existing material or create new material using manipulatives and widgets built into Newline Engage Cloud software. Newline Engage Cloud provides classroom controls and teaching tools not available in other whiteboard applications including hundreds of subject-specific manipulatives and features like timers, polls, spinners, clocks, grids, handwriting recognition and more. Device agnostic, Newline Engage Cloud works on Newline displays as well as tablets, chromebooks, mobile phones, and more. Newline Engage Cloud addresses every imaginable need for teachers to enhance their teaching effectiveness and engage with their students.
